# **Wildfire Risk Community Meeting**

**Genesee Fire Rescue**  
with  
**Wildfire Research Center (WiRē)**

**Thursday, April 14, 2021**  
**6pm (MDT)**  
**Via Zoom**

We would like to invite you to join our community meeting to discuss wildfire risk to homes within the Genesee Fire Protection District.

Last year, Genesee Fire Rescue and the Wildfire Research Center (WiRē) collected data on wildfire risk to homes within the Genesee Fire Protection District. We will discuss data collected by wildfire risk professionals, who evaluated wildfire risk for each individual home in the district, and data collected via household survey, describing homeowner risk perceptions and risk mitigation needs.

Hannah Brenkert-Smith, who is a part of the Wildfire Research Center (WiRē) and a researcher at the University Colorado Boulder, will present results from our research, and discussion will follow.

All are welcome!
